

Quality Time Child Care and Preschool Health Policy

Quality Time Child Care and Preschool must have an up to date immunization report in your child's file. According to the State Licensing requirements and for the protection of all the children, please keep your child at home if your child has any of the following conditions:

1. If your child has a cold that is less than two days old.
2. If your child has skin eruptions or an undiagnosed rash.
3. If, during the last 24 hours, your child has a temperature over 100° F.
4. If your child has vomited in the last 24 hours.
5. If your child has a persistent heavy nasal discharge.
6. If your child has diarrhea.
7. If your child has redness of his/her eyelid linings or an irritation of the eyes followed by swelling or discharge.
8. If your child has difficulty breathing-especially in infants.
9. If your child has a headache or stiff neck.

Please notify the director and keep your child at home if they have a communicable disease, such as chicken pox, measles, mumps, etc.

If a child becomes ill while at the center, the child's parents will be notified. Upon notification, parents are required to pick up their child within the hour to minimize exposure to others.
